

December 2024 Classroom Newsletter

News From 4A

For to us a Child is born, to us a Son is given; Isaiah 9:6

I am really looking forward to parent teacher interviews to meet and chat about our wonderful students. This truly is a fabulous group of children and I am so blessed to spend our days together. Their eagerness to learn, inquisitive minds and kind and caring attitudes make each day a blessing.

December is going to be a busy month in the classroom as well as in our community. We look forward to celebrating Christmas through our Christmas concert, morning devotions, various classroom activities and special events.

In the classroom, we are collaborating within small groups to learn about cause and effect. This will be a fun unit for us! We are continuing to expand our writing skills with learning a variety of sentence starters, sequence writing and will switch to some Christmas themed work to practice these skills. Please note that there will be no spelling test on Dec. 13 and our Dec. 20th test will be Christmas words. In math, we will continue our unit on Prime and Composite numbers and will lead into our Multiplication and Division Unit. If your child brings home their math booklet to complete work, please help them to remember to bring it back to school. Misplaced booklets make for extra, unnecessary work for students.

In Social Studies we continue to learn about the resources, landscapes, characteristics, etc that make the regions in our province of Alberta valued and unique. It has been very interesting to learn more about space in our science unit.

We wish all of our families a very special Christmas season and God's blessings in the New Year.

Upcoming Dates:

December
