

November 2024 Classroom Newsletter

News From 4A

"I praise You because I am fearfully and wonderfully made; Your works are wonderful, I know that full well."
Psalm 139:14

This past month has been a beautiful time of connection and getting to know one another as we build our classroom community. It is so encouraging to see these students striving to learn, grow, improve, extend their knowledge and encourage others as we explore what God has in store. We have so much to look forward to in this year ahead. I've been blessed with the most amazing group of children to work with this year.

In Language Arts, we are well into our novel study and will be completing the Readers Workshop this month. We have learned so much about getting the most out of our books. We continue to practice paragraph structure and identifying important words to include in our writing.

We will be finishing up our add/subtract Unit in Math later this month. Although regular practice of basic facts (+-x) happens in class, it is a valuable practice at home too. Our knowledge of decimals, place value and rounding will carry over into this unit as well, so extra practice is helpful.

In Science we are beginning a new unit on Space which will take us all the way until Christmas.

We are continuing our study of the different regions of Canada in Social Studies. We will begin a research project in December.

I hope you have a wonderful and refreshing break and I look forward to meeting with you at Parent Teacher Interviews.

Upcoming Dates:

November

6: Early Dismissal

8: Remembrance Day Chapel 10:45am

11-15: Fall Break (no classes)

22: Hot Lunch

6, 27: Chip Day
