

January 2025 Classroom Newsletter

News From 4A

If anyone is in Christ, he is a new creation. 2 Corinthians 5:17

What a marvelous Advent season we have had here in 4A! The students did a fantastic job of sharing the message of hope, joy, worship, everlasting life and love in their Christmas Concert. We have enjoyed some extra Christmas projects in the classroom as well as following the Advent story of Jotham's Journey in our daily devotion time.

In Language Arts, we have been learning how to write a newspaper article, using our writer's toolkits. We have also been learning about Cause and Effect in several stories. In January, we will dive into another unit of Reader's Workshop- this time focusing on non-fiction text. We will also focus our writing on letter writing.

We have worked diligently in our Multiplication Unit in Math. This will carry on into January and will lead to our Division Unit. It's always a good idea to practice basic facts (+-x-) to support further math skills.

In Science, we are moving on to our magnetism unit. This should be lots of fun. We continue our study of Alberta in Social Studies as we explore various aspects of our province.

As the weather is chilly, we appreciate the reminders to bring (and wear) warm clothing outside for recess!

January is a time for fresh starts, new beginnings and is a very valuable time of learning in the classroom. I pray for a restful, joyful Christmas season for all of our families and we look forward to starting off 2025 together! Happy New Year!

Upcoming Dates:

January

6: Classes Resume

8: Early Dismissal

17: We Care Collection Drive

17: Hot lunch
