

## **4A Candyland Reading Challenge**

Our class has embarked on a reading challenge this year. Students will make their way through the candyland challenge to see just how many pages they can read this year! At 500 page intervals, students move through the candies. (All reading counts- at school, at home, on the bus, etc.) Pages read will be recorded in the green reading logs. These should be kept in student's take home holders. At any time, they can calculate their pages with me and we will move them up in the game. Once they reach the goal of 5000 pages, they receive a treat. Then the challenge begins all over again!
