

January 2025 Classroom Newsletter

News From 4A

Let all that you do be done in love. 1 Corinthians 16:14

Greetings Grade 4 Families,

January has been a productive month of learning and setting learning goals for this new year. We have been busy working in the classroom as well as enjoying some of the milder winter temperatures outside. It was very fun to be able to watch the Students vs Staff Floor Hockey game on January 24th!

In Language Arts, we have learned how to write personal letters and have mailed out some of our completed work.

We are also practicing our writing techniques by writing newspaper articles. We have begun our second unit of Readers' Workshop as we dive into nonfiction and are beginning our weather research projects.

We tackled division following the Christmas break and we are now mastering long division! We are now moving on to fractions in math.

In Science, we are continuing our Energy Unit focusing on non contact forces. We will have an in-school field trip on February 18 where we will be exploring magnetism and gravity through different stations. In Social Studies, we continue to study the regions of Alberta and will be beginning a research project on Indigenous People.

In February we reflect on the importance of family as well as God's great love for us as demonstrated for us: **John 3:16**. "God so loved the world that he gave his only Son, so that everyone who believes in Him won't perish but will have eternal life."

Upcoming Dates:

February

5: Early Dismissal
