

May 2025 Classroom Newsletter

News From 4A

"Honour her for all that her hands have done, and let her works bring her praise at the city gate.

Proverbs 31:31

In Language Arts, we are going to be wrapping up our last Readers Workshop Session on Historical Fiction as we've looked at different perspectives on the Settlement of the West. We will soon begin our novel study "Mice at Centre Ice." We continue to practice our writing strategies as we've moved into our story writing unit.

In Math, we are learning about calculating area and measuring angles. From here, we will jump into our geometry unit. As always, our quick recall of basic facts greatly benefits various other numeracy concepts.

In Science, for the first week of May will be exploring and programming robots called Sphero Bolts. This will be part of our computer programming outcome that we have been working on throughout the year.. We will also be starting a new unit "Living Systems" which will explore Animal and Plant Life.

In Social Studies, we will continue our research on the First Nations People of Alberta.

There are many fun events happening for us in the next few weeks so we've noted important dates up to year end. On May 9 we will take in "Charlie and the Chocolate Factory" presented by the SCA Performing Arts class. On May 30, we will be going to Strathcona Wilderness Centre. Watch for permission click forms in your inbox. Happy Mother's Day to all of the Moms in our lives.

Upcoming Dates: May
